Q.4 A Answer the following in brief:

{2 mks}

Q. What is 'Cob' ?

Ans) Cob is a form of mud construction wherein mud, water, straw and husk are mixed together and used to build structures.

The steps are as follows:

a) Mix ingredients in proportion

b) Dance and stomp

c) Make Cob-balls

d) Pass balls to the wall

e) Smack and build

but first, an important question..

I Love Cob! ?

pahl! let's just start with a blank page..

not blank for long though!

we dug all the mud out. look
at all the heaps to jump on!

we threw rocks of all shapes and sizes in...

and filled the pits up!
my back's a bit sore..

we built a platform using mud and stone. a fun jigsaw puzzle with giant pieces!

the puzzle took some time
of course..

if you look closely, you'll see that the cobbling has begun!

i asked them to vacate the frame just so that you could see what i was saying..

cobcobcobcobcobcobcobcob

cobcobcobcobcobcobcobcobcob
cobcobcobcobcobcobcobcobcob

and the bamboo poles are up!
naturally treated of course..

hey who turned the lights
out?

tra laa laaa lala laaaa lala

join-the-dots in bamboo..
there's a hint of a room now!

2:45 am rain shower..
got drenched while trying
to tarp the wall up! fun!!!

after the rain has fallen...

cob wall meets a major
hailstorm!! no problema :)

we used truck tyres to
create round windows

ta daad!
tires out, window remains!

the bamboo roof progresses
bamboo by bamboo

and a couple more
bamboobos

we used woven bamboo mats
as a roofing base

and cardboard on top.. the windows grew eyebrows too!

one night the tree
suddenly grew a light-fruit!

later, a tarpaulin covers the cardboard.

hi mall!

after another layer of
cardboard, there's mud on
the roof!

natural paint trials, a ramp to the class and some flooring

and natural-a-painting!!

post a bit of makeup, the natural look!

ah, nearly done! only a bit
of clearing up remains

woo-hooo!!
